Projects

Collage AI Chatbot

PHP, MySQL, JavaScript, HTML, CSS, Ollama, PDF Processing

- Developed an AI-powered chatbot for Kailali Multiple Campus.
- Integrated a MySQL knowledge base for college-specific information.
- Implemented an admin system for managing chatbot knowledge.
- Integrated Ollama/LLM functionality for natural-language responses.
- Added PDF-based information extraction to allow users to ask questions from uploaded documents.

TaskFlow

- Developed a responsive e-commerce platform for product browsing and online shopping.
- Implemented user authentication, product search, filtering, cart, and order management.
- Built an admin dashboard for managing products, users, and orders.
- Integrated AI-based product recommendation functionality.

SmartCart

- Developed a task and project management system for organizing team workflows.
- Implemented task creation, assignment, priorities, deadlines, and status tracking.
- Added role-based authentication for users and administrators.
- Built a dashboard to monitor task progress and project performance.
